

Product name:
Raybox Mirrored with Accessories

Product code:
CIVIL-OPT-113-0011

Description

Raybox Mirrored with Accessories

Technical specification

On one end there is an adjustable cylindrical convex lens (for parallel beam) and a triple aperture system for colour mixing experiments at the other end.

This kit is very useful for reflection, refraction and colour mixing experiments.

Lateral aperture is provided with adjustable hinged mirror.

All apertures in the box are provided with vertical channels to hold slit-plates and colour filters.

The Mirrored Raybox consists of a light source (12V, 24W lamp) producing a convergent, divergent or parallel beam.
