Product name:	Product code:
Hopkinson Test on DC Machines Panel	CMI-NP-0273

Description

A back to back test panel with two similar DC machines for finding efficiency under full load with low power. Features include two coupled DC machines, field rheostats and meters on both machines.

Technical specification

Starter	3 point
Supply	DC supply
Experiment	Hopkinson

Standard Accessories

- Patch cords
- Manual

One machine acts as motor and other as generator; the supply provides only the losses. Key specifications include machines of 2 x 1.5 kW DC shunt and voltage of 220 V DC.

Features

- Two coupled DC machines
- Field rheostats
- Meters on both machines
- Starter
- Safe terminals

Technical Specifications

Machines	2 x 1.5 kW DC shunt
Voltage	220 V DC
Coupling	Rigid
Meters	Voltmeters and ammeters
Rheostats	Field and armature
