Product name:	Product code:
Synchronous Generator Parallel Operation Panel	CMI-NP-0280

Description

A panel for paralleling two alternators with synchronising lamps and synchroscope. Used in power system labs. Features include synchroscope, synchronising lamps and load sharing meters.

Technical specification

Breakers	MCCB
Supply	415 V AC
Experiments	Synchronising, load sharing

Standard Accessories

- Patch cords
- Manual

Voltage, frequency and phase are matched before closing the breaker. Key specifications include alternators of 2 x 3 kVA and voltage of 415 V.

Features
