NAUGRA®

Product name:	Product code:
DC Motor Alternator Set	CMI-NP-0284

Description

A DC motor driving a three phase alternator for studying generator characteristics at variable speed. Features include DC drive, alternator and speed control.

Technical specification

Excitation	Separate DC
Supply	220 V DC
Coupling	Flexible

Standard Accessories

- Panel
- Manual

The DC motor speed can be varied to change the frequency. Key specifications include motor of 5 HP DC shunt and alternator of 3 kVA.

Features
