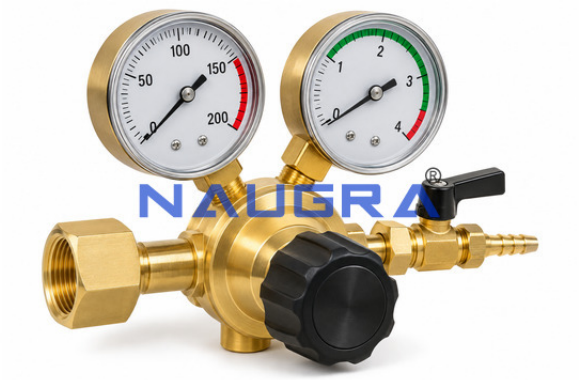
Product name:	Product code:
Welding Regulator Single Stage	CMI-NP-0731



Description

Welding Regulator Single Stage is a single stage gas regulator, designed for controlling gas pressure. Key features include gauge and brass body. It suits technical institutes and workshops.

Technical specification

The Welding Regulator Single Stage is a single stage gas regulator. It is built for controlling gas pressure.

Features

- Gauge
- Brass body
- Safety valve
- Needle

Technical Specifications

Inlet	up to 200 bar
Outlet	0 to 4 bar
Gas	Argon, CO2
Connection	Thread
Gauge	2
Material	Brass
Weight	approx. 0.8 kg
