Product name:	Product code:
Electronic Ignition CDI Training Board	CMI-NP-0992

Description

A capacitor discharge ignition (CDI) training board with pickup coil, CDI unit and ignition coil, used to teach electronic ignition in two wheelers and small engines.

Technical specification

Drive	Variable speed motor 0 to 5000 rpm
Fault switches	6 nos
Panel	Aluminium with diagram
Experiments	Pulse and spark observation
Power supply	230 V AC, 50 Hz

The board allows students to see pulses from the pickup and spark output from the CDI unit with fault insertion for diagnosis.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- CDI unit and pickup coil
- Flywheel magneto simulator
- Ignition coil and plug
- Test points for waveforms
- Fault simulation
- Switch and kill circuit

Technical Specifications

Ignition	CDI, 12 V
Pickup	Magnetic pulse coil
Coil	High tension, 12 V
Spark plug	1 no
