Product name:	Product code:
Hydraulic Circuit Demonstration Panel	CMI-NP-1005

Description

A panel with hydraulic cylinders, valves and flow controls used to demonstrate meter in, meter out, regenerative and sequence circuits.

Technical specification

Gauges	2 nos
Board	Aluminium T slot
Experiments	Speed control and sequencing
Power supply	230 V AC, 50 Hz

The panel lets students assemble circuits with hoses and quick couplings and observe cylinder speed and force.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Double acting cylinder
- 4/3 directional valve
- Flow control and check valves
- Pressure relief and sequence valve
- Quick coupling hoses
- Profile mounting board

Technical Specifications

Cylinders	2 nos, 32 mm bore
Directional valve	4/3 manual
Flow control	Needle type
Max pressure	60 bar
Hoses	Rated 100 bar
