

Product name:
Dissection Pan Pad and Cover

Product code:
CIVIL-DEC-125-0018

Description

Dissection Pan Pad and Cover

Technical specification

The pad made of flexible synthetic material holds pins securely and offers a smooth long lasting surface. Dissection system with pan and pad measuring 29 x 19cm (11.5" x 7.5") replaces dissection wax and eliminates remelting of old wax. Clear plastic covers helps to accommodate specimens up to 9cm (3.5") high, prevents excessive moisture loss and provides stack for storage. The pan is made from aluminium to prevent rusting. Dimensions: 29 x 19cm (11.5" x 7.5")
