NAUGRA®

Product name:	Product code:
Hydraulic Power Pack Training Unit	CMI-NP-1008

Description

A compact hydraulic power pack with pump, tank, relief valve and gauge, used as the oil supply for hydraulic training circuits.

Technical specification

Filter	Return line, 25 micron
Gauge	0 to 100 bar
Experiments	Pressure and flow setting
Power supply	230 V AC, 50 Hz

The unit powers cylinders and motors on a training panel. Students study pressure setting, flow and oil cleanliness.

Features

- Gear pump with electric motor
- Suction vacuum gauge
- Pressure relief valve
- Filter and gauge
- Quick couplings
- Mobile trolley
