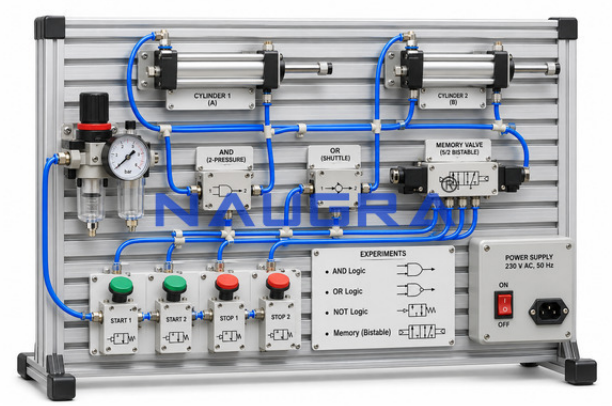
Product name:	Product code:
Pneumatic Logic Circuit Trainer	CMI-NP-1012



Description

A pneumatic logic trainer with AND, OR, NOT and memory valves for building logic control circuits without electrical parts.

Technical specification

Tubing	6 mm PU
Panel	Aluminium profile
Experiments	AND, OR, NOT, memory
Power supply	230 V AC, 50 Hz

Students build interlocks and memory functions using air logic elements and see the same truth tables as in digital electronics.

Features

- Two-hand control valves
- Memory 5/2 valve
- Pneumatic push buttons
- Cylinders and sensors
- Quick connect fittings
- Logic worksheets

Technical Specifications

Logic valves	Two pressure (AND), shuttle (OR)
Memory valve	5/2 bistable
Push buttons	4 nos, pneumatic
Cylinders	2 nos
Pressure	6 bar
