Product name:	Product code:
Engine Cooling System Cutaway Board	CMI-NP-1038

Description

A cutaway training board of an engine cooling system showing radiator, pump, thermostat and hoses, used to teach coolant flow and component function.

Technical specification

Gauge	Temperature, 40 to 120 deg C
Panel	Steel frame with print
Use	Demonstration
Power supply	230 V AC, 50 Hz

Components are cut open and arranged in circuit order so students trace the path of coolant between engine and radiator.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Cut open radiator and water pump
- Thermostat in transparent housing
- Colour coded hoses
- Temperature gauge
- Labelled circuit diagram
- Mounted on a stand

Technical Specifications

Radiator	Cross flow, cut section
Pump	Centrifugal, cut section
Thermostat	Wax type, 87 deg C
Fan	Electric
Hoses	Colour coded
