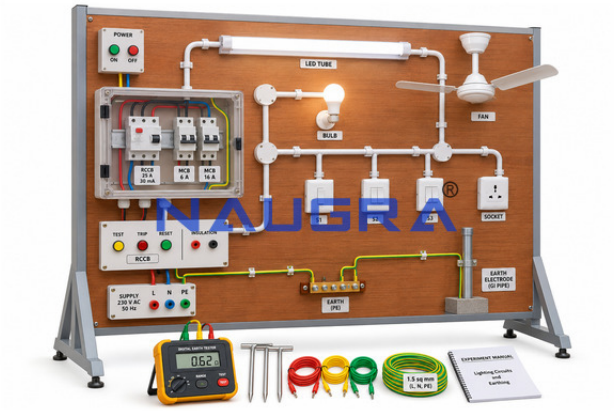
Product name:	Product code:
Earthing and Lighting Installation Training Set	CMI-NP-1052



Description

A training set covering earth pit, earth electrode and lighting circuits with lamps and switches for installation and earth resistance practice.

Technical specification

Board	1200 x 900 mm
Wire	1.5 sq mm with earth
Experiments	Lighting circuits and earthing
Power supply	230 V AC, 50 Hz

Students connect lighting circuits with correct earth continuity and measure earth resistance with a tester.

Features

- Lighting circuits with earth
- Earth electrode model
- Earth resistance tester
- Fluorescent and LED fittings
- MCB and RCCB
- Wiring diagram

Technical Specifications

Fittings	LED tube, bulb, fan
Earth electrode	GI pipe model
Tester	Digital earth tester
RCCB	25 A, 30 mA
MCB	6 A and 16 A
