| Product name: | Product code: |
| --- | --- |
| PLC Controlled Electro Hydraulic Workstation | CMI-NP-1068 |

## Description

An electro hydraulic workstation with PLC for programmable control of cylinders and motors, used to teach modern hydraulic automation.

## Technical specification

| | |
|---|---|
| Sensors | Pressure, proximity |
| Software | Ladder programming |
| Experiments | Sequence, interlocks, pressure |
| Power supply | 230 V AC, 50 Hz |

Students program the PLC to control valves with sensors in feedback, simulating real hydraulic machines.

**Features**

- PLC with I/O module
- Solenoid valve and sensors
- Hydraulic cylinder and motor
- Power pack with filter
- Profile panel
- Programming manual

**Technical Specifications**

| | |
|---|---|
| PLC | 24 V DC, 16 in / 16 out |
| Pump | Gear, 3 litre/min |
| Pressure | 60 bar |
| Cylinders | 2 nos |
| Motor | Hydraulic, 50 cc |
