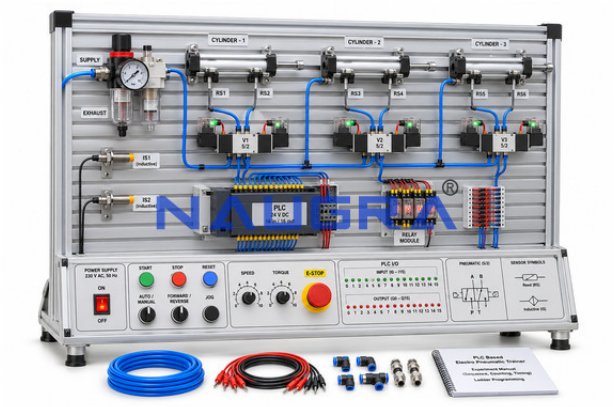
Product name:	Product code:
PLC Based Electro Pneumatic Trainer	CMI-NP-1072



Description

An electro pneumatic trainer with a PLC and sequence station used to program pneumatic cylinders with ladder logic.

Technical specification

Frame	Aluminium profile
Experiments	Sequence, counting, timing
Power supply	230 V AC, 50 Hz

Students program start, stop and sequence cycles on a PLC and check results on real cylinders.

Features

- PLC with I/O
- Solenoid valve bank
- Double acting cylinders
- Reed and inductive sensors
- Programming cable
- Sample programs

Technical Specifications

PLC	24 V DC, 16 in / 16 out
Cylinders	3 nos
Valves	5/2 solenoid
Sensors	Reed, inductive
Pressure	6 bar
Programming	Ladder
