Product name:	Product code:
Electronic Circuit Assembly Training Board	CMI-NP-1086

Description

A training board with component locations for assembling and testing simple circuits such as power supplies and amplifiers.

Technical specification

Supply	Transformer 12 V
Tools	Soldering set
Experiments	Assembly and testing
Power supply	230 V AC, 50 Hz

Students identify components, solder them and test the circuit, building basic construction and testing skills.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Printed circuit board with legend
- Component set
- Test points
- Power supply circuit
- Amplifier circuit
- Assembly manual

Technical Specifications

Circuits	Rectifier, regulator, amplifier
Components	Resistors, capacitors, diodes, transistors
PCB	Double sided, 100 x 150 mm
Test points	Labelled
Meters	Multimeter (optional)
