Product name:	Product code:
Single Phase Transformer Training Module	CMI-NP-1099

Description

Module consisting of a single-phase transformer with multiple taps and meters for open circuit, short circuit, load and polarity tests used in basic electrical machine and electrotechnics courses.

Technical specification

Core	CRGO silicon steel
Dimensions	500 x 400 x 250 mm

Standard Accessories

- Patch cords set
- Experiment manual

Module consisting of a single-phase transformer with multiple taps and meters for open circuit, short circuit, load and polarity tests used in basic electrical machine and electrotechnics courses.

Features

- Multi-tap primary and secondary windings
- OC and SC test circuits
- Digital meters for V, A and W
- Load lamp or resistor bank
- Fully shrouded terminals

Technical Specifications

Rating	1 kVA, 230/115 V
Frequency	50 Hz
Taps	0-115-230 V
Meters	Digital V, A, W
Load	Variable resistive 0-1 kW
