NAUGRA®

Product name:	Product code:
Excavator Hydraulic Pump and Motor Training Unit	CMI-NP-1118

Description

Unit with variable displacement pump, hydraulic motor and pressure controls reproducing an excavator hydraulic circuit for maintenance, testing and performance studies. Key highlights include variable displacement axial piston pump and hydraulic motor with load brake.

Technical specification

Motor drive	5.5 kW
Reservoir	60 L
Flow meter	0-60 L/min
Dimensions	1400 x 700 x 1500 mm

Standard Accessories

- Hose set
- Hydraulic oil
- Manual

Unit with variable displacement pump, hydraulic motor and pressure controls reproducing an excavator hydraulic circuit for maintenance, testing and performance studies. Key highlights include variable displacement axial piston pump and hydraulic motor with load brake.

Features

- Variable displacement axial piston pump
- Hydraulic motor with load brake
- Pressure and flow measurement
- Relief valve adjustment
- Oil cooler and filter

Technical Specifications

Supply	415 V AC three phase
Pump	Axial piston, 28 cc/rev
Pressure	Up to 160 bar
