Product name:	Product code:
Ratio and Blending Flow Control Training Unit	CMI-NP-1134

Description

Unit with two flow lines mixed in a set ratio by control valves and controllers, demonstrating ratio control used in blending and dosing processes. Key highlights include two independent flow lines and ratio controller.

Technical specification

Tank	25 L clear
Output	4-20 mA
Dimensions	1100 x 600 x 1500 mm

Standard Accessories

- Interconnection leads
- Manual

Unit with two flow lines mixed in a set ratio by control valves and controllers, demonstrating ratio control used in blending and dosing processes. Key highlights include two independent flow lines and ratio controller.

Features

- Two independent flow lines
- Ratio controller
- Mixing tank with outlet
- Two flow transmitters
- Adjustable ratio set point

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Lines	2 nos
Flow	0-10 L/min each
Valves	2 motorised control valves
Controller	Digital ratio PID
