Product name:	Product code:
Hydraulic Directional Control Valve Troubleshooting Trainer	CMI-NP-1147

Description

Trainer fitted with solenoid directional valves with simulated sticking spools and burnt coils to practise testing and replacement of valve components. Key highlights include solenoid valves with fault switches and coil resistance testing.

Technical specification

Faults	8 switchable
Dimensions	1200 x 600 x 1500 mm

Standard Accessories

- Hose set
- Manual

Trainer fitted with solenoid directional valves with simulated sticking spools and burnt coils to practise testing and replacement of valve components. Key highlights include solenoid valves with fault switches and coil resistance testing.

- Solenoid valves with fault switches
- Coil resistance testing
- Manifold mounted valves
- Pressure test points
- Cylinder load circuit

Technical Specifications

Supply	415 V AC, 3 phase
Valves	4/3 solenoid, 24 V DC
Pressure	0-100 bar
Cylinder	40 mm bore, 200 mm stroke
Pump	2.2 kW
