Product name:	Product code:
Level and Flow Combined Process Control Trainer	CMI-NP-1156

Description

Combined tank trainer with level and flow loops, pump and valve for teaching basic industrial process control and PID loop interactions. Key highlights include level and flow loops and differential pressure level sensor.

Technical specification

Pump	0.25 kW
Dimensions	900 x 600 x 1400 mm

Standard Accessories

- Interconnection leads
- Manual

Combined tank trainer with level and flow loops, pump and valve for teaching basic industrial process control and PID loop interactions. Key highlights include level and flow loops and differential pressure level sensor.

Features

- Level and flow loops
- Differential pressure level sensor
- Pump and control valve
- PID control
- Transparent tank

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Tank	20 L clear acrylic
Level	0-500 mm
Flow	0-10 L/min
Controller	PID, 4-20 mA
