Product name:	Product code:
PLC and Pneumatic Control Training Panel	CMI-NP-1158

Description

Panel combining a programmable logic controller with pneumatic cylinders and sensors so students learn ladder programming and electro-pneumatic automation. Key highlights include pLC with ladder logic software and pneumatic cylinders and valves.

Technical specification

Valves	5/2 solenoid
Air	6 bar
Sensors	Reed, inductive
Panel	900 x 600 mm

Standard Accessories

- Programming cable
- Manual

Panel combining a programmable logic controller with pneumatic cylinders and sensors so students learn ladder programming and electro-pneumatic automation. Key highlights include pLC with ladder logic software and pneumatic cylinders and valves.

Features

- PLC with ladder logic software
- Pneumatic cylinders and valves
- Digital I/O simulators
- Sensor inputs
- Safe 24 V DC wiring

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
PLC	24 I/O, relay or transistor
Cylinders	3 nos
