Product name:	Product code:
Industrial IoT Gateway Training Platform	CMI-NP-1161

Description

Platform with a PLC, edge gateway and cloud dashboard teaching how plant data is collected, protocol converted and viewed remotely using MQTT and OPC. Key highlights include pLC to gateway data collection and mQTT and OPC UA support.

Technical specification

PLC	24 I/O
Dashboard	Web based
Router	Wi-Fi
Dimensions	900 x 500 x 600 mm

Standard Accessories

- Ethernet cables
- Manual

Platform with a PLC, edge gateway and cloud dashboard teaching how plant data is collected, protocol converted and viewed remotely using MQTT and OPC. Key highlights include pLC to gateway data collection and mQTT and OPC UA support.

Features

- PLC to gateway data collection
- MQTT and OPC UA support
- Local dashboard
- Protocol conversion
- Cybersecurity basics

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Gateway	Industrial, dual Ethernet
Protocols	Modbus TCP, OPC UA, MQTT
