Product name:	Product code:
PLC Programming and Simulation Trainer	CMI-NP-1187

Description

Training unit with PLC, switches, lamps and analog inputs for learning ladder logic, timers, counters and basic industrial control programs through hands-on wiring. Key highlights include pLC with ladder software and input switches and output lamps.

Technical specification

Inputs	12 switches
Outputs	12 LEDs
Analog	2 inputs 0-10 V
Panel	600 x 400 mm

Standard Accessories

- Programming cable
- Manual

Training unit with PLC, switches, lamps and analog inputs for learning ladder logic, timers, counters and basic industrial control programs through hands-on wiring. Key highlights include pLC with ladder software and input switches and output lamps.

Features

- PLC with ladder software
- Input switches and output lamps
- Analog input potentiometers
- Timer and counter exercises
- Protected 24 V DC terminals

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
PLC	24 I/O, relay output
Programming	Ladder, USB cable
