NAUGRA®

Product name:	Product code:
Medium Voltage Switchgear Simulation Training Panel	CMI-NP-1213

Description

Mimic panel simulating a medium voltage ring main unit with vacuum breaker, isolator and earthing switch operation using safe low voltage signals. Key highlights include breaker and isolator mimic and interlock sequence training.

Technical specification

Interlocks	Mechanical and electrical
Panel	900 x 700 mm

Standard Accessories

- Test leads
- Manual

Mimic panel simulating a medium voltage ring main unit with vacuum breaker, isolator and earthing switch operation using safe low voltage signals. Key highlights include breaker and isolator mimic and interlock sequence training.

Features

- Breaker and isolator mimic
- Interlock sequence training
- Earthing switch operation
- Protection relay indication
- Safe 24 V DC control

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Simulated rating	11 kV
Mimic	Single line diagram
Switches	6 nos
Relay	Overcurrent, earth fault
