NAUGRA®

Product name:	Product code:
8051 Microcontroller Development Trainer Board	CMI-NP-1216

Description

Trainer board with an 8051 microcontroller, LEDs, LCD, keypad and ports for learning assembly and embedded C programming and interfacing exercises. Key highlights include 8051 with onboard programmer and lCD, LEDs and keypad.

Technical specification

LCD	16 x 2
Keypad	4 x 4
Interface	USB programming
Board	300 x 200 mm

Standard Accessories

- USB cable
- Manual

Trainer board with an 8051 microcontroller, LEDs, LCD, keypad and ports for learning assembly and embedded C programming and interfacing exercises. Key highlights include 8051 with onboard programmer and lCD, LEDs and keypad.

Features

- 8051 with onboard programmer
- LCD, LEDs and keypad
- ADC and DAC modules
- Seven segment display
- Relay and buzzer

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Controller	8051 family
Clock	11.0592 MHz
