Product name:	Product code:
Spur Gear Train Demonstration Apparatus	CMI-NP-1356

Description

Spur Gear Train Demonstration Apparatus is a mechanical demonstration apparatus designed for studying velocity ratio and speed of simple and compound spur gear trains.

Technical specification

Dial	0 to 360 deg
Base	powder coated MS

Standard Accessories

- Spare shafts
- Manual

The Spur Gear Train Demonstration Apparatus is a mechanical demonstration apparatus built for studying velocity ratio and speed of simple and compound spur gear trains.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
