Product name:	Product code:
Two Liquid Mixing and Proportioning Trainer	CMI-NP-1367

Description

Two Liquid Mixing and Proportioning Trainer is a process training set designed for studying proportional mixing of two liquids with pumps and flow meters.

Technical specification

Piping	transparent PVC
Power Supply	230 V AC, 50 Hz

Standard Accessories

- Tubing
- Manual

The Two Liquid Mixing and Proportioning Trainer is a process training set built for studying proportional mixing of two liquids with pumps and flow meters.

Features

- Two tanks and pumps with flow meters
- Mixing tank with stirrer
- Level sensors
- PLC control with HMI
- Transparent tanks

Technical Specifications

Tanks	3 x 20 litres
Pumps	2 nos diaphragm
Flow Meters	0 to 10 LPM
Stirrer	60 W
Controller	PLC with touch panel
