NAUGRA®

Product name:	Product code:
Single Phase Motor Starting and Troubleshooting Trainer	CMI-NP-1374

Description

Single Phase Motor Starting and Troubleshooting Trainer is a trainer designed for studying capacitor start and split phase motors and fault finding.

Technical specification

Protection	MCB 10 A
Supply	230 V AC, 50 Hz

Standard Accessories

- Test leads
- Manual

The Single Phase Motor Starting and Troubleshooting Trainer is a trainer built for studying capacitor start and split phase motors and fault finding.

Features

- Motor with accessible capacitor and centrifugal switch
- Fault insertion
- Meters and tester
- Clear wiring diagrams
- Safe design

Technical Specifications

Motor	0.37 kW, 1440 rpm
Types	split phase, capacitor start
Capacitor	25 uF, 230 V
Faults	6 selectable
Meters	V, A
