Product name:	Product code:
PCB Design Lab Starter Kit with Components	CMI-NP-1387

Description

PCB Design Lab Starter Kit with Components is a starter kit designed for designing, making and testing simple PCBs from schematic to finished board.

Technical specification

Manual	step by step
Supply	230 V AC, 50 Hz

Standard Accessories

- Safety gloves
- Manual

The PCB Design Lab Starter Kit with Components is a starter kit built for designing, making and testing simple PCBs from schematic to finished board.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
