NAUGRA®

Product name:	Product code:
PCB Etching and Drilling Training Station	CMI-NP-1389

Description

PCB Etching and Drilling Training Station is a training station designed for etching copper clad boards and drilling holes for through-hole assembly.

Technical specification

Extractor	30 W
Power Supply	230 V AC, 50 Hz

Standard Accessories

- Drill bits
- Manual

The PCB Etching and Drilling Training Station is a training station built for etching copper clad boards and drilling holes for through-hole assembly.

Features

- Heated etching tank with bubble agitation
- Bench drill with stand
- Fume extraction
- Temperature controller
- PCB holders

Technical Specifications

Tank	5 litres, heated
Temperature	ambient to 60 deg C
Drill	0.8 to 3 mm collet
Speed	10000 rpm
Board Size	up to 200 x 150 mm
