Product name:	Product code:
PCB Reflow Soldering Oven Training Unit	CMI-NP-1392

Description

PCB Reflow Soldering Oven Training Unit is a training unit designed for soldering surface mount boards using controlled reflow temperature profiles.

Technical specification

Fan	cooling
Supply	230 V AC, 50 Hz

Standard Accessories

- Boards
- Manual

The PCB Reflow Soldering Oven Training Unit is a training unit built for soldering surface mount boards using controlled reflow temperature profiles.

Features

- Programmable temperature profile
- Infrared and hot air heating
- Glass viewing window
- Digital controller
- Cooling fan

Technical Specifications

Chamber	300 x 250 mm
Power	2.2 kW
Temperature	up to 280 deg C
Profiles	8 programmable
Controller	PID
