Product name:	Product code:
Building Energy Monitoring and Control Training System	CMI-NP-1405

Description

Building Energy Monitoring and Control Training System is a training system designed for monitoring energy use and controlling loads in a building.

Technical specification

Display	touch screen
Supply	230 V AC, 50 Hz

Standard Accessories

- Cables
- Software
- Manual

The Building Energy Monitoring and Control Training System is a training system built for monitoring energy use and controlling loads in a building.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Smart energy meter
- Load control relays
- Display and software
- Trend graphs
- Demand limit functions

Technical Specifications

Meter	single phase digital, 10-60 A
Loads	lamps and fan model
Relays	4 nos
Software	monitoring
Interface	RS485 and Ethernet
