Product name:	Product code:
Pressure Transducer Calibration Trainer	CMI-NP-1454

Description

Pressure Transducer Calibration Trainer is a trainer designed for calibrating pressure transducers against a test gauge.

Technical specification

Standard Accessories

- Tubing
- Manual

The Pressure Transducer Calibration Trainer is a trainer built for calibrating pressure transducers against a test gauge.

Features

- Hand pump and reservoir
- Pressure transducer
- Test gauge
- Digital display
- Valves and manifold

Technical Specifications

Range	0 to 10 bar
Transducer Output	4 to 20 mA
Test Gauge	0 to 10 bar, 100 mm
Hand Pump	pneumatic
Display	digital
Accuracy	0.5 percent
Power Supply	230 V AC, 50 Hz
