Product name:	Product code:
Electric Vehicle Drive and Battery Training Unit	CMI-NP-1488

Description

Electric Vehicle Drive and Battery Training Unit is a training unit designed for studying battery pack, motor controller and regenerative braking in an EV.

Technical specification

BMS	included
Loading	brake

Standard Accessories

- Charger
- Manual

The Electric Vehicle Drive and Battery Training Unit is a training unit built for studying battery pack, motor controller and regenerative braking in an EV.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Load motor and coupler
- Lithium battery pack
- Battery management display
- Speed and torque measurement
- Safe low voltage

Technical Specifications

Motor	250 W BLDC
Battery	48 V, 20 Ah Li-ion
Controller	sine wave
Regeneration	yes
Display	V, A, rpm
