NAUGRA®

Product name:	Product code:
Francis Turbine Test Rig	CMI-NP-1501

Description

Francis Turbine Test Rig is a test rig designed for studying reaction turbine performance and efficiency.

Technical specification

Standard Accessories

- Weights
- Manual

The Francis Turbine Test Rig is a test rig built for studying reaction turbine performance and efficiency.

Features

- Francis runner with guide vanes
- Blade loading
- Venturimeter
- Pressure gauges
- Closed loop sump
