Product name:	Product code:
Kaplan Turbine Test Rig	CMI-NP-1502

Description

Kaplan Turbine Test Rig is a test rig designed for studying axial flow turbine characteristics with adjustable blades.

Technical specification

Standard Accessories

- Weights
- Manual

The Kaplan Turbine Test Rig is a test rig built for studying axial flow turbine characteristics with adjustable blades.

Features

- Kaplan runner with variable pitch
- Draft tube
- Brake dynamometer
- Orifice meter
- Digital readout
