Product name:	Product code:
Biomass Gasifier and Incinerator Lab Unit	CMI-NP-1515

Description

Biomass Gasifier and Incinerator Lab Unit is a laboratory unit designed for studying biomass combustion and gasification.

Technical specification

Standard Accessories

- Biomass sample
- Manual

The Biomass Gasifier and Incinerator Lab Unit is a laboratory unit built for studying biomass combustion and gasification.

Features

- Downdraft reactor
- Blower
- Temperature sensors
- Gas burner
- Ash removal

Technical Specifications

Reactor	150 mm dia., 600 mm
Fuel	wood chips, 5 kg
Blower	0.25 HP
Temperature	up to 900 deg C
Sensors	thermocouples 4
Burner	gas flare
Power Supply	230 V AC, 50 Hz
