Product name:	Product code:
Surface Grinding Machine Manual	CMI-NP-1533

Description

Surface Grinding Machine Manual is a horizontal-spindle reciprocating-table surface grinder with a magnetic chuck for finishing flat surfaces. It is used for producing flat, smooth and accurate finishes on hardened steel parts.

Technical specification

Spindle Speed	2800 rpm
Motor	1.5 hp
Grinding Accuracy	+/-0.005 mm
Chuck	Magnetic, 450 x 150 mm
Power Supply	230 V AC, 50 Hz, single phase

Surface Grinding Machine Manual is a horizontal-spindle reciprocating-table surface grinder with a magnetic chuck for finishing flat surfaces. It is designed for producing flat, smooth and accurate finishes on hardened steel parts. Key highlights include hand operated longitudinal and cross feed, permanent magnetic chuck and precision spindle with sealed bearings.

Features

- Hand operated longitudinal and cross feed
- Permanent magnetic chuck
- Precision spindle with sealed bearings
- Wheel guard with dust outlet
- Fine micro-feed down-feed dial

Technical Specifications

Table Size	450 x 150 mm
Longitudinal Travel	480 mm
Wheel Size	200 x 20 x 31.75 mm
