Product name:	Product code:
Vocational CNC Wire Cut EDM Trainer	CMI-NP-1597

Description

Vocational CNC Wire Cut EDM Trainer is a compact wire cut electrical discharge machine for cutting conductive materials. It is used for demonstrating spark erosion machining.

Technical specification

Control	CNC
Dielectric	Emulsion

Vocational CNC Wire Cut EDM Trainer is a compact wire cut electrical discharge machine for cutting conductive materials. It is designed for demonstrating spark erosion machining. Key highlights include molybdenum wire, dielectric tank and servo spark control.

Features

- Molybdenum wire
- Dielectric tank
- Servo spark control
- Programmable table
- Safety guard

Technical Specifications

Table Travel	200 x 160 mm
Wire Diameter	0.18 mm
Work Height	100 mm
Pulse Power	Transistor
