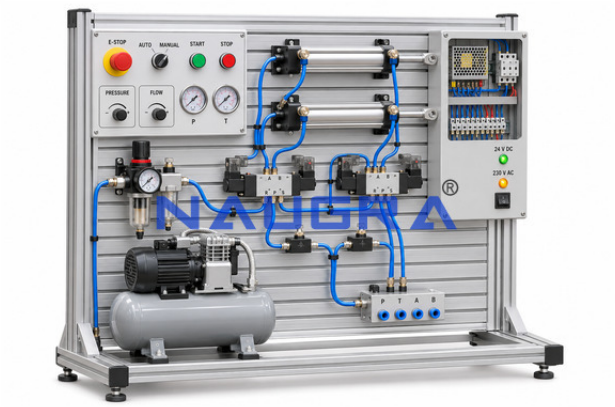
Product name:	Product code:
Vocational Electro Pneumatic Trainer	CMI-NP-1603



Description

Vocational Electro Pneumatic Trainer is a pneumatic bench with solenoid valves, relays and cylinders. It is used for learning electropneumatic circuits.

Technical specification

Supply	230 V AC

Vocational Electro Pneumatic Trainer is a pneumatic bench with solenoid valves, relays and cylinders. It is designed for learning electropneumatic circuits. Key highlights include solenoid valves, relay modules and compressor.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Solenoid valves
- Relay modules
- Integrated compressor for reliable use
- Integrated cylinders for reliable use
- Integrated sensors for reliable use

Technical Specifications

Pressure	6 bar
Valves	5/2 way
Cylinders	Double acting
Control	24 V DC
Frame	Aluminium profile
