Product name:	Product code:
Vocational Hydraulic Trainer with Power Pack	CMI-NP-1605

Description

Vocational Hydraulic Trainer with Power Pack is a hydraulic bench with pump, valves, cylinders and motors for circuit building. It is used for building and testing hydraulic circuits.

Technical specification

Valves	4/3 way
Frame	Aluminium

Vocational Hydraulic Trainer with Power Pack is a hydraulic bench with pump, valves, cylinders and motors for circuit building. It is designed for building and testing hydraulic circuits. Key highlights include power pack with reservoir, directional control valves and cylinders and motor.

Features

- Power pack with reservoir
- Directional control valves
- Cylinders and motor
- Quick connect hoses
- Pressure gauges

Technical Specifications

Pump	Gear, 2 lpm
Pressure	Up to 60 bar
Reservoir	15 litre
Motor	1 hp
