Product name:	Product code:
Vocational Radial Arm Drilling Machine	CMI-NP-1611

Description

Vocational Radial Arm Drilling Machine is a drilling machine with a swinging arm and movable head for large work. It is used for drilling holes at different positions in large workpieces.

Technical specification

Motor	1.5 hp
Column Diameter	130 mm
Power Supply	415 V AC, 50 Hz, three phase

Vocational Radial Arm Drilling Machine is a drilling machine with a swinging arm and movable head for large work. It is designed for drilling holes at different positions in large workpieces. Key highlights include rotating column, arm elevation by motor and sliding drill head.

Features

- Rotating column
- Arm elevation by motor
- Sliding drill head
- Geared spindle drive
- Base plate with T-slots

Technical Specifications

Drilling Capacity	32 mm
Arm Length	900 mm
Spindle Taper	MT 3
Speeds	8 steps
