Product name:	Product code:
Vocational Spot Welding Machine	CMI-NP-1615

Description

Vocational Spot Welding Machine is a pedestal type resistance spot welder with foot pedal. It is used for joining overlapping sheets by spot welds.

Technical specification

Power Supply	230 V AC, 50 Hz, single phase

Vocational Spot Welding Machine is a pedestal type resistance spot welder with foot pedal. It is designed for joining overlapping sheets by spot welds. Key highlights include copper electrodes, foot lever and timer.

Features

- Copper electrodes
- Foot lever
- Integrated timer for reliable use
- Water cooling
- Rigid frame

Technical Specifications

Capacity	2 x 2 mm mild steel
Throat	300 mm
Rating	10 kVA
Electrode Force	Mechanical
Timer	Adjustable
