Product name:	Product code:
Vocational Gyroscope Apparatus	CMI-NP-1636

Description

Vocational Gyroscope Apparatus is a gyroscope on a stand with a spinning disc to demonstrate precession. It is used for studying gyroscopic couple and precession.

Technical specification

Weights	Set
Stand	Steel
Power Supply	230 V AC, 50 Hz, single phase

Vocational Gyroscope Apparatus is a gyroscope on a stand with a spinning disc to demonstrate precession. It is designed for studying gyroscopic couple and precession. Key highlights include motorised disc, swivelling gimbal frame and angle scale.

Features

- Motorised disc
- Swivelling gimbal frame
- Angle scale
- Integrated weights for reliable use
- Digital rpm indicator

Technical Specifications

Disc Diameter	250 mm
Motor Speed	0 to 3000 rpm
Gimbal	Dual
Scale	0 to 360 deg
