Product name:	Product code:
Vocational Wood Mortising Machine	CMI-NP-1661

Description

Vocational Wood Mortising Machine is a machine for cutting mortises. It is used for making joints in doors and frames.

Technical specification

Vocational Wood Mortising Machine is a machine for cutting mortises. It is designed for making joints in doors and frames. Key highlights include chisel, table and clamp.

Features

- Integrated chisel for reliable use
- Integrated table for reliable use
- Integrated clamp for reliable use
- Integrated depth for reliable use
- Integrated motor for reliable use

Technical Specifications

Chisel	Up to 25 mm
Table	300 x 200 mm
Depth	100 mm
Motor	1 hp
Speed	1400 rpm
Power Supply	230 V AC, 50 Hz, single phase
