NAUGRA®

Product name:	Product code:
Modular Production Storage and Buffer Module	CMI-NP-1736

Description

Modular Production Storage and Buffer Module is a module with gravity magazine and buffer track. It is used for storing and buffering parts between stations.

Technical specification

Air	6 bar

Modular Production Storage and Buffer Module is a module with gravity magazine and buffer track. It is designed for storing and buffering parts between stations. Key highlights include magazine tubes, buffer track and sensors.

Features

- Magazine tubes
- Buffer track
- Integrated sensors for reliable use
- Pneumatic stop
- Aluminium base

Technical Specifications

Capacity	12 parts
Sensors	Optical
Stop	Pneumatic
Base	Aluminium
Control	24 V DC
