Product name:	Product code:
Dry Block Digester with Fume Exhaust Manifold	CMI-NP-0043

Description

A 40 place dry block digester with acrylic exhaust manifold for safely removing acid fumes during Kjeldahl digestion of agricultural, feed and dairy samples.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Exhaust manifold
- Tube rack

The manifold sits above the tubes and connects to a fume scrubber or water aspirator. It limits corrosive acid vapours in the laboratory air.

Features

NAUGRA®

- 40 tube capacity
- Exhaust manifold with tube caps
- Digital temperature controller
- Corrosion resistant body

Technical Specifications

Positions	40 tubes
Temperature range	Ambient to 450 deg C
Accuracy	+/- 1 deg C
Manifold	PTFE coated or acrylic
Controller	Digital PID with timer
Block	Aluminium
