Product name:	Product code:
Walk In Industrial Drying Oven	CMI-NP-0050

Description

A walk-in drying oven with large trolley loading for drying bulk materials, moulds and large components in industrial and civil laboratories.

Technical specification

Power supply	415 V AC, 3 phase, 50 Hz

Standard Accessories

- Trolley
- Trays

The large room-sized chamber allows trolleys to be rolled in and out, and heated air circulates uniformly. It is suited to bulk samples that cannot fit in a normal oven.
