Product name:	Product code:
Setter and Hatcher Combined Egg Incubator	CMI-NP-0054

Description

A combined setter and hatcher unit with separate chambers for incubation and hatching, giving a complete small hatchery with temperature, humidity and turning control.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Hatching baskets
- Egg trays

Eggs spend the first 18 days in the setter with turning, then move to the hatcher where turning stops. This replicates commercial hatchery practice for students.

Features
