Product name:	Product code:
Motor Control Circuit Training Panel	CMI-NP-1757

Description

Motor Control Circuit Training Panel is a panel with contactors, timers and relays for building motor starting and control circuits.

Technical specification

Standard Accessories

- Patch cord set
- Connecting leads
- Experiment manual

The Motor Control Circuit Training Panel is a panel with contactors, timers and relays for building motor starting and control circuits. It is designed for comprehensive training in electrical machines, wiring, protection and control circuits.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Modular layout with plug-in circuit modules
- Covers wiring, motor control and protection experiments
- Fault insertion switches for troubleshooting practice
- Shrouded 4 mm safety terminals throughout

Technical Specifications

Contactors	4 nos, 9 A, 230 V coil
Timers	On-delay and off-delay
Overload relay	1 - 1.6 A to 6 - 10 A
Power supply	415 V AC, 3 phase, 50 Hz
Protection	ELCB, MCB and thermal overload
Frame	Powder-coated MS with aluminium panel
